### SOLUTION SNAPSHOT

FACE CAPACITY <b>50,000 faces</b>	DISPLAY <b>8" IPS Touchscreen</b>	CONNECTIVITY <b>WiFi / Ethernet / USB</b>
RECOGNITION SPEED <b>&lt; 0.3 s</b>	DIMENSIONS <b>182 x 96 x 74 mm</b>	

# Built for Real Operations

Next-generation biometric attendance terminal with face recognition, fingerprint scanning, and RFID authentication.

## CAPABILITIES

## Key Features & Product Modules

### AI Processing Unit

The core brain of the device that handles facial recognition and motion detection instantly without depending on cloud connectivity.

### Infrared Night Vision Module

Advanced IR sensors allow the camera to record clearly in complete darkness, ideal for night operations.

### Secure GPS Tracking Module

Provides real-time location data and geotags all recorded footage for operational transparency.

### Audio Capture System (Dual Microphone)

Captures clear and noise-reduced audio even in high-noise operational environments.

### High-Resolution Wide-Angle Lens

Captures crystal-clear visuals and ensures every important detail is accurately recorded for evidence.

### Long-Life Battery Pack

High-capacity battery designed to support extended field operations and long-duty shifts.

### Professional Mounting Accessories

Includes tactical clips, magnetic mounts, and harnesses for secure attachment to uniforms, vests, and helmets.

### Docking Station

Centralized hub for rapid charging, secure data transfer, and automatic evidence synchronization.

## Where This Product Fits

03

### Enterprise Access & Workforce Safety

### Industrial Shift Management

### Visitor & Contractor Tracking1

### Visitor & Contractor Tracking2

### Visitor & Contractor Tracking3

### Visitor & Contractor Tracking4

## OPERATIONAL VALUE

## Software, Benefits & Outcomes

04

### Centralized Device Management

Monitor and control all your deployed attendance terminals from a single unified web dashboard.

- Real-time device health monitoring
- Over-the-air (OTA) firmware updates
- ufufuyfyufuyfyufuy

### Automated Reporting

Generate and export comprehensive attendance logs, shift patterns, and personnel performance metrics.

- Scheduled daily/weekly email reports
- Customizable templates and HR system integration

### Access Control Integration

Easily tie the attendance system into existing door locks and turnstiles for a complete security workflow.

- Wiegand protocol support
- Anti-passback functionality

## Technical Details

<b>Face Capacity</b>	50,000 faces
<b>Display</b>	8" IPS Touchscreen
<b>Connectivity</b>	WiFi / Ethernet / USB
<b>Recognition Speed</b>	< 0.3 s
<b>Dimensions</b>	182 × 96 × 74 mm
<b>Fingerprint Sensor</b>	Optical 500 dpi
<b>Storage Records</b>	500,000 records
<b>Power Draw</b>	12 W typical / 18 W peak
<b>Ingress Protection</b>	IP67 / IK10
<b>Warranty</b>	5 years hardware

"The attendance solution saved our HR team 20+ hours per week. Face recognition is fast, accurate, and employees love it."

**Priya Sharma**

CHRO, Enterprise Solutions Inc.

#### Q. What is the typical installation timeline?

A. Standard installation is completed within 1-2 business days per unit. Enterprise deployments with network integration typically take 3-5 days depending on site complexity.

#### Q. Can it run fully on-premise?

A. Yes. The platform supports air-gapped and on-premise deployments with local management, storage, and update controls.

#### Q. How does it integrate with existing HR software?

A. The device supports REST APIs, webhooks, and export workflows that fit common ERP and HR suites including SAP, Workday, and Oracle HCM.
